The Sacred Healing training offered by Amayah (The Amazing) Grace helped me to integrate the healing techniques I had learned in the past and added new healing technology to my healing work. The course enabled me to practise in a gentle hands-on environment and took us through the set up, greeting and counseling processes with a client. It also demonstrated taking clients on their healing journeys, the main one being to their Healing Temple; we learned the forgive-and-release technique as well as creating a healing environment and connecting with the client.

This course is suitable for beginning-more advanced practitioners, as AmayahGrace lovingly guided us through the learning journey. I would highly recommend the Sacred Healing training as a vehicle to gain confidence and competency in your own healing ability.
